

Crystal Reports

allows you to access almost any data and format that data into dynamic information. You're able to integrate the results

into web and windows applications. You create, interact with and view your own custom reports.

Crystal Reports offers a high degree of flexibility and control over how data is presented and formatted. The visual report designer lets you quickly design virtually any report you need including cross-tab, conditional, top N/bottom N, summary/drill-down, form, mailing label, OLAP, and subreport. You can increase the graphical impact of your reports by choosing from a wide variety of map and chart types including bar/3D bar, pie/doughnut, line, gantt and more ... **Are you gaining the benefits that Crystal Reports has to offer?**

A-Certif Ltd provide **Crystal Reports training courses at several levels**, from a basic introduction class to advanced classes, and for all versions of Crystal Reports. Our experienced trainers are knowledgeable and friendly and will answer all your questions and make sure you are happy with every topic that you need to cover.

We offer **public courses** which have a standard content and take place at scheduled times. Alternatively we provide **private courses** which can be tailored to suit your particular learning requirements and delivered when and where you want them.
