

**Fireworks®** is the professional software tool for creating everything from simple graphical buttons to sophisticated rollover effects. Readily import, edit, and integrate all major graphics formats, including vector and bitmap images. Easily export Fireworks images to Flash, Dreamweaver, and third-party applications. You can:

- Quickly create high-quality web graphics and complex interactivity. Fireworks offers all the familiar tools you need: robust photo editing, precise text control, and professional image creation.
- Fireworks provides a complete professional toolset for rapid production and easy updates. Reduce design and development time, even when working with large images.
- Work effectively with your development team, with wide support for all major graphics formats, share files across graphics applications.
- Plus lots more ...

**Are you taking advantage of what Fireworks has to offer?**

A-Certif Ltd provides **Macromedia Fireworks training courses at several levels**, from a basic introduction class to advanced classes, and for all versions of Fireworks. Our experienced trainers are knowledgeable and friendly and will answer all your questions and make sure you are happy with every topic that you need to cover.

We offer **public courses** which have a standard content and take place at scheduled times. Alternatively we provide **private courses** which can be tailored to suit your particular learning requirements and delivered when and where you want them.
